

INNOVATIVE DEPENDABLE EFFECTIVE

DISCOVER OUR NATURAL INGREDIENT SOLUTIONS FOR SWINE APPLICATIONS

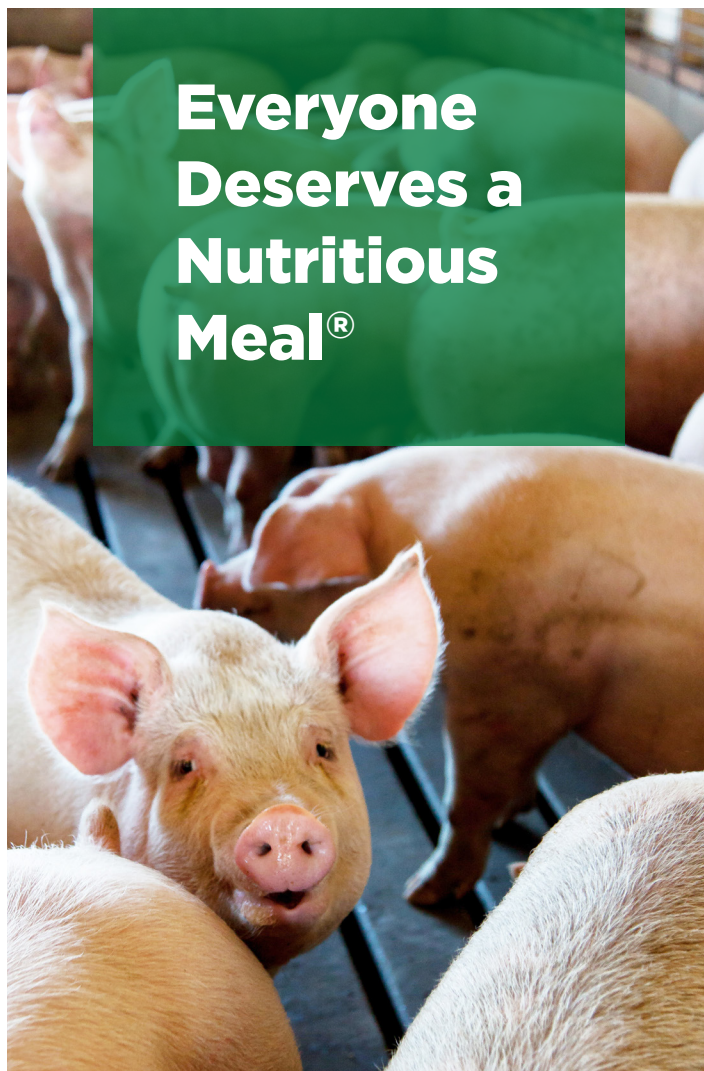

York Ag commercializes a portfolio of holistic ingredients that help swine herds face daily nutritional and environmental challenges, and mitigate stress.

Whether it is to help strengthen the gastrointestinal (GI) tract or improve the environmental conditions of sows, piglets, growers, and finishers, our ingredients help livestock professionals meet the specific nutritional needs of their operation. Furthermore, our stress mitigation products made of botanical ingredients help swine manage unavoidable stressors.

We also offer a set of dry germicides to kill pathogens, reduce ammonia, and keep barns dry.

PRODUCT	DESCRIPTION
	York Ag is an authorized U.S. distributor of Stalosan® F, an EPA-registered dry germicide. Its multi-action disinfecting power provides long-acting protection, killing harmful pathogens for up to a full week. This effectively helps reduce costly health issues, such as swine dysentery, scours, and other various infections. Stalosan® F kills pathogens, neutralizes ammonia, lowers pH, and keeps the barn drier.
	York Ag is an authorized U.S. distributor of Hilyses®, the Bionic Prebiotic. Hilyses helps swine herds withstand daily challenges from disease-causing, productivity-zapping bacteria. These bugs live in the gastrointestinal (GI) tract and compromise health, immunity, and performance.
	York Ag is an authorized U.S. distributor of IMW50®, a yeast-based additive designed to promote animal well-being. IMW50 offers trace minerals, vitamins, β -glucans and good levels of mannan-oligosaccharide (MOS). The mannan-oligosaccharide (MOS) is known for its capacity to agglutinate pathogens. It helps prevent pathogen colonization in the gut as it offers a binding site to harmful bacteria.

PROBIOTECH SWINE SOLUTIONS

PHYSICAL HEALTH & PRODUCTION

MENTAL WELL-BEING & BEHAVIOR

NATURAL CONDITIONS

GUT HEALTH

DESCRIPTION

ALTERN^{AS} SWINE	✓	botanical based feed additive to support gastrointestinal health and growth rate.
AQUAGUT^W SWINE	✓	botanical based liquid product that contributes to a healthy digestive function and metabolism.
SYNBIOTEC[®]	✓	botanical based feed additive to support performance by promoting intestinal and microbial health.

STRESS MITIGATION

PHYTOZEN[®] 250	✓ ✓	botanical based product for swine feeds to help mitigate stress.
PHYTOZEN[®] OP	✓ ✓ ✓	botanical based product for organic swine feeds to help mitigate stress.
PHYTOZEN[®] LIQUID	✓ ✓	botanical based liquid product for swine's drinking water to help mitigate stress.

RESPIRATORY HEALTH

AQUAFRESH^W	✓	botanical based liquid product to support respiratory organs.
FEEDFRESH^W	✓	botanical based product for swine feeds to help support respiratory organs.
FEEDFRESH^W OP	✓ ✓	botanical based organic product for swine feeds to help support respiratory organs.

PARASITE & INSECT CHALLENGE

PARASHIELD[®] LIQUID OP	✓	botanical based liquid product for swine's drinking water.
TENEMAX[®]	✓	drying agent used to help lower the number of insects in the bedding.
TENEMAX[®] OP	✓ ✓	drying agent used to help lower the number of insects in the bedding.

BEDDING QUALITY & VIRAL MITIGATION

BIOTANIX[®] WS	✓	microbial supplement to improve the microbiome of the bedding.
VIRABLOC[®]	✓	supports gut health and helps mitigates effects of viral exposure from feed sources.

York Ag is an authorized U.S. distributor of Probiotech International Inc.
